SEVEN WELLDEVELOPED CASES IN NEW ORLEANS.

AUTHORITIES NOT ALARMED.

FEEL CONFIDENT THAT THEY CAN CONTROL THE DISEASE.

All the Case Are Importations-City to Be Thooughly Cleaned-General Quirantine Against the Cresent City Likely to

Be Decinred.

New Orlean, Sept. 12.-Shortly before noon to-day, he board of health officially declared six of the suspicious cases of fever on St. Claude street to be yellow fever. A cople of hours subsequently the board anounced another pronounced case of yellor fever at Miro and Espienade streets, also in the lower part of the city, but a tile or more away from the infected squee. The announcement of the first six case of yellow fever was not unexpected, although it was hoped from the delay of the present experts that these cases were suply of billious malaria.

No generalalarm has resulted here, al-though the lews rapidly spread through the city. Te authorities do not believe that the sitution is materially worse than it was four r five days ago, and they are still confidet of their ability, with modern sanitar appliances, successfully to quarantine be infected districts.

The officia bulletin of the board of experts declaring the St. Claude street cases to be yellow fever was received by President Olliphat soon after 11 o'clock. Dr. Olliphant ismediately sent for members of the pres and gave out the report, which was signed by Drs. Lemonnier, Touatre, Bikham, Petit and Parham, of the board (experts, and Dr. R. Devren, the attendig physician. The report, was

Of the twive original cases, all of which had their cigin from a case that had come from Ocea Springs, the six other than those repoted to-day as yellow fever were announced this afternoon to be practicalwell, up walking about their rooms. Of the six pronounced yellow fever, four are convalescet and two are declared to be critically il, one of these having suffered a relapse fince yesterday.

Among he suspleious cases reported yes-terday was that of a boy named Roy, living at Mro and Esplanade streets. Drs Lemonnie. Touatre and Matas were sent to make | careful observation of the case. to make careful observation of the case. This evening they pronounced it to be unquestionally yellow fever, and as apparently haing had its origin in Scranton. Miss., or in the vicinity of that town.

Dr. Olishant said this afternoon: 'I have made the announcement of the existence of seven cases of yellow fever in New Orleans with sincere regret, but there was no alternatile for me under my pledge to keep faith with the public here and elsewhere. I do not think however, there is occasion here for serious alarm, unless conditions shall gow materially worse. We shall have to await developments. We now have hid a total of eight cases and one death, the origin of all of which may be traced to the infected towns on the Mississippi toast. They may all be classed as importations.

"I see no occasion for any panic in New Orleans. The general health of the city is good, and it is rapidly being put in fine sanitary condition. There is no present apprehension of an epidemic, and I have reason to hope that we shall continue to be trace to not of additional suspicious cases were again reported to the board of health to-day, in each instance physicians were at once dispatched to alwestigate. Their reports have been uniformly that the suspicions were groundless.

Acting Mayor Bristin and the members o Acting Mayor Bristin and the members of the conference committee met the board of health to-day and discussed the question of sanitation. It was reported that arrangements had been made with the water works company and with large plants on the river front to furnish an ample supply of water. Many of the gutters were flushed to-day, and it was said that practically every one in the city would have running water in it to-morrow. A heavy rainstorm visited New Orleans tals morring, and assisted in cleaning the streets.

It is probable that most of the towns that have not quarantined New Orleans will now refuse to have any communication with this city. The situation in this respect, however, will not be much aggravated, as the excitement has been bottled up for several days.

JACKSON, MISS., EXCITED. All Traffic From Infected Districts Ordered to Pass Through With-

It will be remembered that it was previously reported that yellow fever existed at Edwards, and that Hon. S. S. Chapman had died of the scourge after having visited a family just returned from Ocean Springs. This report was afterward denied by the Edwards authorities. An order was promulgated to-day that all trains from the infected district be forced to pass through the city without stopping, and that the quarantine be enforced with all possible strictness. Dr. Purnell, a yellow fever expert, has left Vicksburg for Edwards to investigate the cases of fever there, and go to Pelahatchie, twenty-five miles east of here, to inquire into a case there. ed that yellow fever existed at Edwards

were under the auspices of the L O. O. F. societies of the city, and the usual ceremonies were carried out in full. The remains, simply the skeleton, were exposed to view, and were viewed by nearly 200 members of the order, After the services the remains were buried in Union cemetery.

Wilson, who was a member of the Odd Fellows, dled in Westport from the result of a fractured skull, and was buried by the members of the order. The grave was in a field, and, consequently, could not be well cared for. The order decided to re-move them to Union cemetery, and they were exhumed last Wednesday.

Sursery and Bicycle Check Stand a Grand Avenue Church May Re Abandoned.

It is more than probable that the Sunday EVENING FOR ASSAULT. nursery and bicycle check stand at the Grand Avenue M. E. church will be abandoned. The nursery was opened last Sun day, but no children were forthcoming

day, but no childrem were forthcoming, and the nurses had nothing to do. The same thing happened yesterday. Not a single mother took her infant to the nursery to be cared for while she enjoyed the sermon in peace. It was thought that there were a great many mothers who were kept from attending church because they could not take their babies to church with them and could not conveniently leave them at home. To supply this supposed lack, the nursery was established, and three women were appointed to take charge of the children for the four Sundays in September. But either owing to the extremely hot weather, or to other reasons unknown, no mothers have availed themselves of the gentle care of the nurses next Sunday, the plan will in all probability be abandoned, at least until Dr. Hancher's dream of a great, up to date church is realized. The bicycle check stand is not patronized very extensively, and that, too, will probably go by the board.

The negro had en suspected of having assaulted a Miss Chapman a few nights ago, and this suspicion was confirmed by his confession. A large crowd soon gathered at the scene of the shooting, but there were no threats of violence or intimidation. The sheriff and deputies returned to the city to get a vehicle to convey the wounded man to the city, and while they were absent the negro confessed to having assaulted Miss Chap-man and to having committed thefts and burglary. The Attempt to Dictate to Outside Towns Concerning Maids of Hon-Will Cause Ill Feeling.

They argue that Kansas City invited outside towns to send young ladies here to take part in the festivities and say that the outside towns should be permitted to choose their own representatives. If the people of Chillicothe wish to send "a working girl" to represent them, say the laboring classes, it does not look well for Kansas City to refuse to receive her and accord her the reception promised in the invitation. Speeches of denunciation were made by labor leaders at yesterday's meeting of the Industrial Council, after which these resolutions were adopted:

"Whereas, when in the course of human events the honorable business occupation of a young lady is a barrier to her becoming a maid of honor to the carnival queen, because 'fashionable' society so urges, thereby advertising to the world that none but idlers, society wall flowers and 'Charley boys' will be permitted to participate in said festivities; therefore be it "Resolved, That the Industrial Council hereby returns its sincere thanks to the managers of the fall festivities for this timely notice.

"Resolved, That the working people of Kansas City and vicinity are urgently requested to abstain from honoring said flower parades with their presence in any manner whatever, and we hereby congratulate Miss Edna Whitney for her deliverance from such contaminating associations."

Mrs. J. K. Cravens, of the flower parade executive committee, stated yesterday that no attempt would be made by the ladies to interfere with the selection of maids of honor by outside towns, and that if Miss Whitney came to Kansas City as a representative of Chillicothe she would be warmly welcomed and given the same cordial reception as all other maids of honor.

MACON NEGRO STRUNG UP LAST Pertland, Ore., Sept. 12.—The controversy about divisions between the Union Pacific and the Oregon Short Line companies, which caused the opening of the Ogden gateway and the establishment of through gateway and the establishment of through rates and train service in connection with the Colorado lines, has culminated in the dencellation of all through freight and passenger tariffs on business to and from Pertland and points on the Oregon Railway & Navigation Company's line via the Union Pacific, and the discontinuance of train service via Granger and the Union Pacific. The cancellation takes effect September 21. It is claimed by shippers that this action will make little change in the handling of the freight business because the Union Pacific. for several months past, has discriminated against the Oregon lines by turning over its Portland business to the Southern Pacific at Ogden for transportation via Sacramento.

The through passenger service via the Union Pacific is more important, and its discontinuance will naturally divert some business from the Short Line to the through lines via Spokane and Ogden.

A meeting of Chinese citizens was held yesterday morning in room 218, New York Life building, China will in all probability be represented in the parade, though this has not been definitely decided. If China joins the parade, it will be represented by a monster fire dragon similar to those which have attracted so much attention in several Western demonstrations.

A picnic was held at Walruff's grove yesterday for the purpose of raising funds to help defray the expenses of Germany's floats. The Fatherland will be represented with four floats, of which two have already been decided upon. One will be the King of the Karnival, and the other a scene from the beautiful opera of "Lohengrin." There was a good sized crowd at the plenic yesterday, and the fund was very considerably increased.

Italy will be represented in the great parade of nations during Carnival week by floats representing the three caravels of Columbus, the Pinta, the Nina and the Santa Maria. The Italio-Americano Society recently appointed a committee to confer with a committee from the Karmival Krewe. These two committees met yesterday afternoon and agreed upon all financial details. Work will begin at once on the preparation of the floats, and the Italian citizens of the city will see to it that their native country is creditably represented in the great parade.

Everyone present agreed with this declaration, and the speaker was heartily applauded. But they were all anxious to see the parade a success and while declining the invitation of the krewe, giving as their formal reason the lack of time to prepare a suitable display, they offered to assist as individuals in aiding the Karnival Krewe committee:

LEAD AND ZINC OUTPUT.

Joplin, Mo., Sept. 12.—(Special.) The week's output of the lead and zinc mines was considerably better than that of the preceding week. The sales of zinc ore were was considerably better than that of the preceding week. The sales of zinc ore were fifteen carloads more and the sales of lead ore three carloads more than the preceding week, and nearly all of the surplus ore has been disposed of.

The feature of the week in mining circles was the rapid rise in the price of lead ore and the great demand for it. Lead started in at \$24.75 per 1,000 pounds, delivered, and on Friday had advanced to \$25.75 per 1,000. On Saturday the price advanced to \$7.50, and several lots sold for better prices. One lot in Shelbina sold at \$29 per 1,000, and the St. Louis Lead Company sold its lead ore at \$30. From all indications lead ore will reach \$35 before the end of the month. The top price paid for zinc ore was \$25.50 per ton for eight carloads of Joplin ore, and all of the Springfield ore, while the top price in other parts of the district was from \$1 to 50 cents per ton less. The prices paid generally were about the same as the preceding week.

Bryan and the Wreck To The Journal.

To The Journal.

In looking over a Denver paper I read an account of the wreck of this train near Emporia, Kas., on the night of the 8th inst. I desire to correct some of the inaccuracies regarding the heroic acts of the Hon. William Jennings Bryan. Not, however, with the intention to detract in the least from the humane acts of the said Bryan.

The facts are that Mr. Bryan did only what fifty plain American citizens did—assisted in caring for the wounded and dying, but did not pull them from the burning wreck, as he left in a cab for Emporia before the wreckage took fire.

He was not among those who went into the worst of the debris and dug out the unfortunates, but was on the out edge of the work assisting to care for those who were carried out of the wreckage by others. The attempt to ring in his political speech and the dying words of a poor fireman to him regarding same is purely the work of an imaginative reporter, and shows political notoriety gone to seed.

The occupants of Pullman Allende, among whom were Henry Laws, of Honolulu; Dr. Charles C. Olmstead, Kansas City; L. A. Etter, Kansas City; Orrin W. Robertson, Milwaukee; Alfred A. Watson, New York; Alfredo B. Adams, Chicago, and J. M. Mergridge, Mexico, can all testify as to the correctness of the above statements, Yours.

Followed by a Brave Woman. To The Journal.

In the leudatory account given by the Times of Mr. W. J. Bryan's conduct in the Emporia wreek I noticed an amusing "buil." It mentioned the fact that Mr. Bryan and the Times' correspondent clung to their seats, and when the car stopped crawled out of a window, and "a brave little woman" followed them. Very brave woman, of course, and helping herself, too; but how about the bravery of the men mentioned?
